NOTES

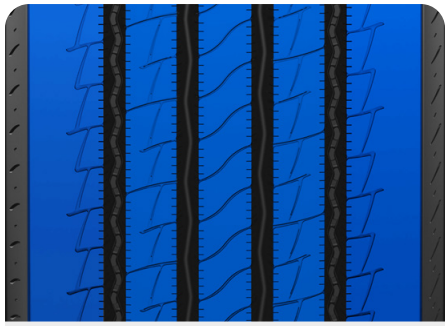

* Rim underlined is measuring rim.
«No bus shall be operated with regrooved, recapped or retreaded tires on the front wheels». US Code of Federal Regulations: Title 49, Transportation; Part 393.75
* Exceeding the lawful speed limit is neither recommended nor endorsed.
* Do not exceed vehicle manufacturer gross axle weight rating and gross vehicle rating.

FEATURES

ALL-WEATHER TRACTION

Advanced sipes along the groove edges help **prevent tearing and cracking, resisting irregular wear** to **deliver higher mileage**. Their added biting edges also provide strong snow grip and confident handling across all weather conditions.

EXCELLENT RIDE COMFORT

Five straight, continuous ribs create a stable, uniform contact patch that **enhances steering precision** and straight-line control. Their even load distribution **reduces vibration and helps lower road noise** promoting more consistent wear and enhanced ride comfort.

EXTENDED TREAD LIFE

Reinforced shoulder rib limits outer-edge wear and maintain stable handling. Advanced shoulder sipes help dissipate heat during high-load, high-mileage use, **extending overall tire life** for **future retreading**.
